## **NEWS RELEASE**

Release Date: April 4, 2004 (Toronto, Ontario)

### **RE: Edac Releases New Line of PLCC Sockets**

Edac Inc., a global leader in the design and manufacture of board level interconnect products, expanded its broad offering by introducing a new line of PLCC sockets to their product lineup.

This new series offers industry standard PLCC sockets in standard packaging sizes from 20 through 84 position layouts. They are offered in 20, 28, 32, 44, 52, 68, and 84 contact versions. Plating options include tin over nickel or gold flash to 50 micro inches of gold plating.

The D series of PLCC sockets are available in through holes and surface mount options in tubes or on standard tape and reel for automated insertion.
