Group Announcement

I am pleased to announce the appointment of Ronnie Sta. Monica to the position of Mechanical Engineer with Edac Inc. Ronnie has considerable experience with mechanical engineering, most recently with Johnson Electric, a supplier of power window lift motors to the automotive industry. Ronnie worked for this organization in North America and Hong Kong. He has also worked with a manufacturer of LCD's in China. Ronnie's background includes product design, customer interface and production-related problem solving. He is a graduate in Mechanical Engineering from the Mapua Institute of Technology of Manila, Philippines. Ronnie and his family are residents of Scarborough.

Ronnie will be involved in the completion of the project to provide customers with engineering drawings for our standard products through our web site. He will also play a key role in interacting with customers regarding clarifying their requirements as well as problem solving. The latter area will also include follow-up with our China plant and other suppliers in Asia.

Please join me in welcoming Ronnie to the Group and every success in his new position.

Bruce Hynds
