

## EDS2011

The EDAC Group of Companies attended the 2011 Electronic Distribution Show (EDS), which took place in May at the Paris Hotel and Convention Center in Las Vegas. In addition to this being EDAC's 20<sup>th</sup> show, they were also celebrating their 45<sup>th</sup> year of Interconnect Excellence.

This year's EDS Show had an increased number of manufacturer booths on the show floor compared to **EDS2010** again making it a good opportunity to learn about new technologies and discover new products from various Electronic component suppliers.

***"EDS is the premier annual event for EDAC to come together and meet with our Distribution Partners and Manufacturing Representatives. It is also a great venue to exchange ideas and recommendations for strategizing on growth for the coming year."*** quoted EDAC's President and CEO, Adrian Robinson. Additionally, ***"We felt that we had informative meetings and constructive discussions on mutual plans to insure increase business"***

Just as at **EDS 2010**, all of EDAC's partners expressed a positive outlook going forward with everyone confident they can achieve their mutual goals.

Adrian Robinson continued: ***"The EDAC Group was very excited to introduce a new comprehensive line of Magnetic Jacks and an extended line of our IP67 Water-Proof interconnect offering at EDS 2011. We look forward to growing these product offerings with both our Distribution and Manufacturer Representative Partners"***.

Some of the comments EDAC received from its business partners during the show included: ***"We continue to invest in inventory to support the growth we have experienced and expect in the future"***. ***"The new Magnetic Jack and Waterproof lines are a testament to EDAC's commitment to expanding their position in the market and growing our mutual businesses"***.

The **2011 EDS show** was very productive for EDAC and their distribution relationships and they look forward to participating in next year's 2012 **EDS show**.

### **About EDAC Group:**

The EDAC group of companies are global leaders in the design and manufacture of interconnect products. EDAC serves more than 7000 clients directly and through distribution partners globally.
